Response To Restriction Requirement

Dear Sir:

This paper is submitted in response to the September 3, 1997 Office Action issued in connection with the above-identified application. A response to said Office Action is due October 3, 1997, and therefore this paper is being timely filed.

In the Office Action, the Examiner required restriction to one of the following inventions under 35 U.S.C. §121:

I. Claims 1-24 and 56-59, drawn to a chip module, classified in class 257, subclass 723.

II. Claims 25-55, drawn to a method for fabricating or repairing a chip module, classified in class 437, subclass 180.

In response to this restriction requirement, applicant hereby elects claims 1-24 and 56-59 of Group I drawn to a chip module. This election to prosecute claims is submitted in compliance with 35 U.S.C. §121 and is made without prejudice to the method claims 25-55.

Consideration of the merits of claims 1-24 and 56-59 and a Notice of Allowance therefore are requested.

Respectfully submitted,
